

PRESS RELEASE

Potassium Nitrate Association Launches www.kno3.org

Antwerp, 23rd of March 2010

The Potassium Nitrate Association (PNA) has launched www.kno3.org as a tool to develop and promote the agronomic and economic advantages of potassium nitrate in appropriate crop production systems throughout the world. This website contains up-to-date information regarding potassium nitrate product characteristics, advantages and benefits, application methods, crop nutrition recommendations and trial results, among others.

About PNA

The Potassium Nitrate Association (PNA) started in 2008 as a non-profit association of potassium nitrate producers.

Current members of the PNA are:

- SQM (Sociedad Química y Minera de Chile S.A.) www.sqm.com
- Haifa Chemicals Ltd. www.haifachem.com
- ACF Minera S.A.
- Migao Corporation www.migaocorp.com

The mission of the PNA is two-fold: 1) to develop and promote the agronomic and economic advantages of potassium nitrate in appropriate crop production systems throughout the world, and 2) to support and represent potassium nitrate producers in relevant industry bodies, and in relevant official government bodies around the world with respect to regulations on potassium nitrate, related to safety (transport, storage), security (misuse, terrorism) and human health.

For more information visit www.kno3.org or contact us at: info@kno3.org.
